

# Firetide Certification

## Why Get Trained:

Wireless Network Training builds the confidence to rapidly and skillfully deploy MESH for all types of wireless projects from simple less complex solutions, to creative and elaborate MESH environments. Also, completion of the course provides documental proof that you are trained in all aspects of a Firetide wireless deployment. We call upon our trained partners more and more as customers request MESH to fulfill difficult networking requirements.

Continued training ensures that you are ahead of the curve and demonstrates that you are a dedicated professional and technical leader with the ability to successfully implement wireless solutions for your customers.

## What is Firetide Certification?

Firetide Certification is a master's course in mesh technologies. You'll learn to analyze real -world installation scenarios, and obtain essential RF information through Firetide wireless mesh certification curriculum. With Firetide certification, your will be able to effectively sell, install, maintain and service Firetide mesh solutions. Get the knowledge you need to deliver excellent customer satisfaction:

- Handle deployment challenges with confidence
- Understand all of your options for equipment and installation techniques
- Meet the requirements for data throughput, reliability, and security
- Shorten the time needed to get the mesh network up and running
- Meet the annual certification requirements for Premier Partner status

## Who Should Attend?

Network engineers, RF installers, and technical managers who are responsible for mesh network design, site surveys, installation and on-going customer support.

**Class is limited to 16 people per session, so register early!**

## Cost

The course is \$895 per person. With purchase of Firetide Demo equipment, the cost of the course for one seat will be reduced to \$495.

## Dates and Locations

Classes are offered periodically. Check with ZMarketing for current dates.

[If you are interested in attending, or sending members of your team to attend, please complete a Training Registration Form.](#)
